Since 2018, the United Nations Population Fund (UNFPA) in Venezuela, within the framework of the Humanitarian Response Plan, focuses its actions on ensuring the continuity of Sexual and Reproductive Health (SRH) services, the provision of contraceptive methods, and the prevention and response to Gender-Based Violence (GBV) in 8 prioritized states. Since March 2020, these actions have been further heightened to respond to the challenges derived from the COVID-19 and contribute to the protection of the Sexual and Reproductive Rights of women and young people in greater vulnerability.

**CONTINUITY OF SEXUAL AND REPRODUCTIVE HEALTH SERVICES**

- **236,766** Women reached through strengthened SRH services.
- **4,527** People reached with adolescent SRH services, supplies, and information.
- **16** Hospitals and 39 primary health centers have been boosted with medical supplies, PPE, and hospital hygiene.
- **5,036** Personnel trained on various aspects of SRH and COVID-19 prevention.
- **105,333** Tests dispensed for HIV and syphilis.
- **3** Centers for pregnant women have been improved in infrastructure, water, and electricity services.

**PREVENTION AND RESPONSE TO GENDER BASED VIOLENCE**

- **15,623** In-transit women and returnees reached with Dignity Kits (Basic feminine hygiene products and information on GBV).
- **28,515** People informed and sensitized about GBV.
- **577** Personnel of public institutions and social organizations have strengthened their knowledge for the response to GBV.
- **726** Women reached with differential GBV emergency services.
- **1** Safe Space for Women and adolescents established on the border.
- **13** Remote services in Case Management, Psychosocial Care and Legal Guidance.
- **1** Center for health care and GBV prevention and response has been established in a border community (joint action with UNICEF).

**PROVISION OF CONTRACEPTIVE METHODS**

- **+250,000** Total of people reached with contraceptives.
- **3,687** Returnees reached with contraceptives.
- **14,610** People reached with contraceptives through the door-to-door strategy during the confinement applied to the COVID-19.
- **153,732** Injectable contraceptives
- **33,752** Intrauterine devices
- **42,579** Condoms
- **3.3752** Contraceptives Dispensed
- **Total: 468,671**

**Distribution of Humanitarian Aid**

The UNFPA team in Venezuela is made up of 51 people deployed in 8 states in the country. UNFPA works alongside dozens of implementing partners, humanitarian organizations, and UN agencies under the health, wash and protection clusters. Tons of humanitarian aid have been distributed to date.

- **+106 Tons of humanitarian aid have been distributed to date.**
The Venezuela Humanitarian Response Plan with Humanitarian Needs Overview 2020 (HRP) aims to provide 4.5 million vulnerable Venezuelans with humanitarian assistance.

We strive to achieve zero unmet contraceptive needs, zero avoidable maternal deaths, and zero gender-based violence and harmful practices.

We strive to achieve zero unmet contraceptive needs, zero avoidable maternal deaths, and zero gender-based violence and harmful practices.
